

Metavate Ltd are specialists in metal pre-treatment chemicals, providing high quality cost-effective products to the manufacturing industry for over 10 years.

We are committed to our environmental responsibilities, which is why all our products are designed to reduce the environmental impact of the manufacturing industry.

Our commitments are:

- To comply with all relevant environmental regulations
- Source and promote products which are REACH compliant
- Minimise emissions by evaluating operations and ensuring they are as efficient as possible
- To support businesses in making greener choices
- To actively promote recycling both within the company and amongst our customers
- To continue to support our customers in achieving ISO 50001 and 14001 accreditations through adoption of our eco-friendly product ranges

We are continually looking to improve our environmental performance and will review policies regularly.
